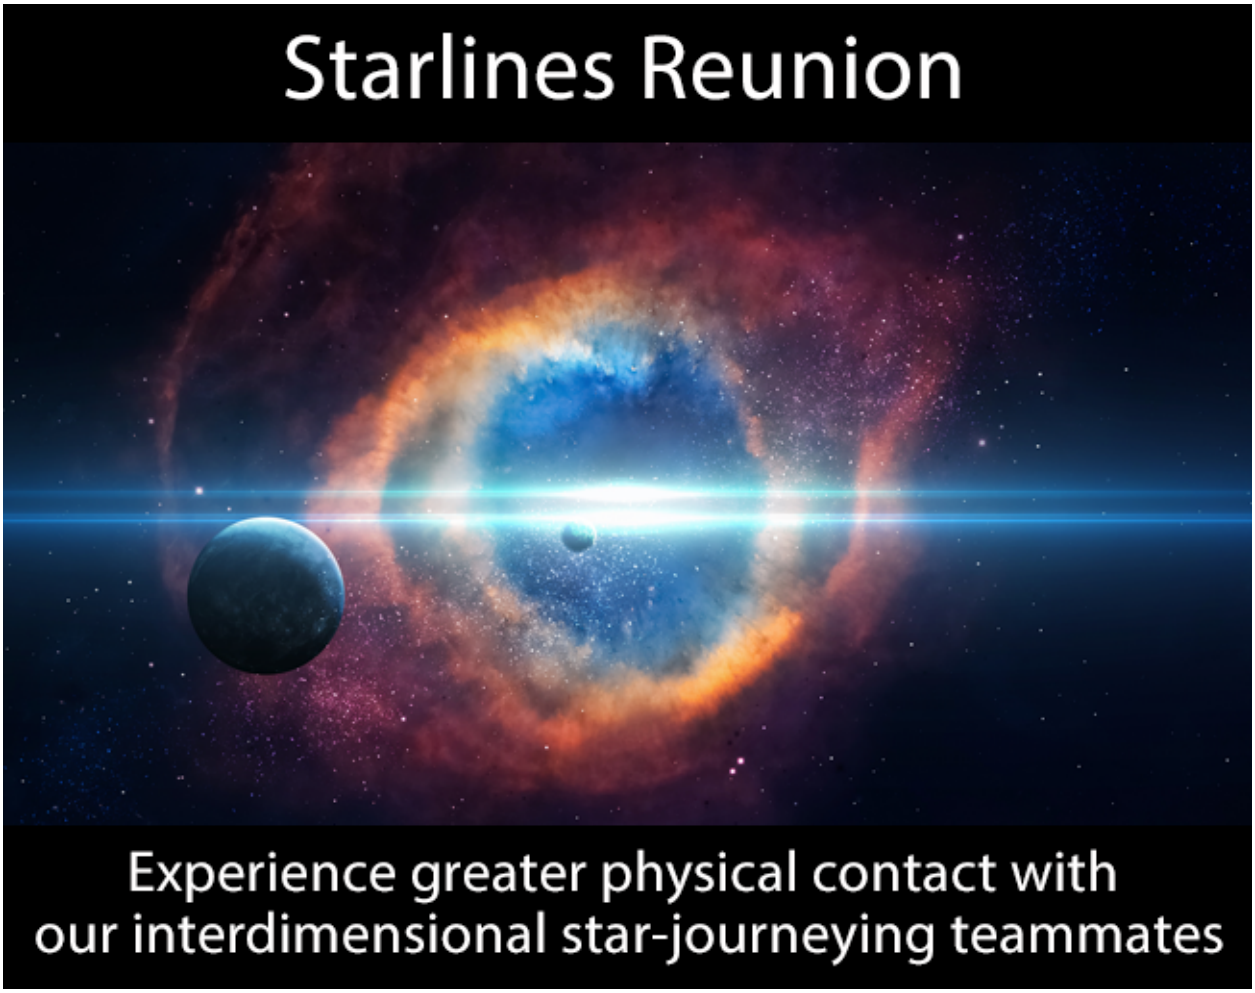
Prerequisite: Gateway Voyage®, Guidelines® or Lifeline, Exploration 27®, Starlines I and Starlines II



2019 Website Program Description

Join skilled trainer and creator of the Starlines (SL) programs, Dr. Franceen King in Arizona for a celebratory opportunity for graduates of Starlines. Physically reconnect with fellow Earth-stationed Galactic Ambassadors while focusing on greater physical contact with our interdimensional star-journeying teammates.

This participant-powered program will be somewhat more relaxed with:

- Lots of sharing and group activity
- Informative videos
- Hemi-Sync® exercises
- Several periods of outdoor activity at night
- A planned field trip to Sedona designed to explore unusual energies (weather permitting)

Review our histories and connections in various star systems, galaxies, and dimensions. Discover and reclaim more aspects of our I-There and I-There Cluster. As we raise our vibratory frequencies, and reclaim more of Total Self through 34/35, 42, and 49 focus states, we will move further beyond the Stargate of the Galactic Core.

Clear Personal Barriers to Experience Greater ET Contact!

We are not alone in the Universe. It appears that other intelligences in our multi-dimensional universe have the ability to express in our physical Earth environment, and on other physical planets, as well as transdimensionally.

- Physically re-connect with fellow Earth-stationed Galactic Ambassadors
- Reclaim and reunite with more aspects of our I-There and I-There Cluster
- Review the F-34/35, 42, and 49 Focus states, and move further beyond through the Stargate of the Galactic Core
- Access inner guidance regarding our personal and collective roles in facilitating extra-terrestrial contact and human/planetary development
- Review the possible history of human/ET contacts
- Review other projects and organizations working toward greater ET contact
- Discuss Earth's role in the Cosmos "Exopolitics"

It is likely that within our I-There and I-There cluster(s), we all have aspects expressing in other star systems, as well as other dimensions. Star-journeying is a natural activity of who we are. Archeology, historical texts, and spiritual teachings throughout the planet

suggest that beings from the skies have been present and often assisted humanity during the development of Earth School.

I AM READY TO EXPLORE!

Starlines Reunion is an advanced course and only available to graduates of Gateway Voyage, Guidelines or Lifeline, Exploration 27, and Starlines I & II.

This course has a maximum capacity of 20 participants and is only offered once a year. We highly recommend reserving your space in advance.

Are there benefits for humans, and all of Earth, to have more recognized contact with these beings now? Many current humans report physical contact with extra-terrestrial spacecraft and intelligences. At least some of these reports are true and/or accurate. The planetary culture of the past 70 years or so has often ridiculed contact reports and, to varying degrees, cultivated fear of contact.

As we move into higher frequency energies, perhaps it is time to reveal and normalize extra-terrestrial interactions. Ultimately, the visitors are our very close family…brothers and sisters…aspects of "our Oneness in Love." We are all connected.

Access inner guidance explaining our role in Planetary Ascension, and Solar, Interstellar, and Galactic coordination.
